ASBESTOS CONTAINING PRODUCTS

J. F. Vyverberg - New York
J. L. Konzen - Toledo 11
J. F. Shannon - Granville
J. E. Heard - Washington D. C.

As marine product manager, it will be necessary for you to coordinate our activities to prevent exclusion of the use of products containing asbestos on board ship.

I would suggest that you review Al Kevlin's files and build a background as it would occur to date and, additionally, that you establish a committee composed of the following individuals:

Don Western - Chairman
John Vyverberg - Health Legislation
Dr. Konzen - Liaison with NIA Health Committee
Dick Shannon - Chemistry Technology
Sam Heard - Liaison with Navy

I understand from John Vyverberg that there have been recent meetings in Washington which included representatives from Mt. Sinai Hospital (Doctor Silacoff), Johns-Manville, and Commander Loughton. We could participate in meetings of this nature.

Don Glosser
