Dear Mr. President,

Please tell the Food and Drug Administration to APPROVE Docket Number 94P-0420/CP1. Studies over the past 60 years have indicated a link between talc products and ovarian cancer. Women who use cosmetic talc products deserve to at least be informed and warned through a label on the product. I am 48 years old and have been dealing with ovarian cancer for nearly three years. Treatment does not work for everyone once you have this disease--preventing it in the first place must receive

attention

Sincerely,

Kit Scherber
