Subject: Re: Media request--Seeking interview on ammonia emissions and PM2.5--Deadline 1/17 noon ET

Hi Lindsey, I am on it.

On Jan 11, 2018, at 11:14 AM, Lindsey Konkel **Ex. 6** wrote:

Hi Enesta,

I'm a reporter for Ensia magazine about agricultural ammonia emissions and PM2.5. I'd like to give the story some context about government regulation on this topic. Would you be able to put me in touch with an EPA expert who could answer the following questions? My deadline for comment is noon ET on Wednesday, January 17.

Thank you,
Lindsey Konkel

1. Does the EPA consider NH₃ a precursor to PM_{2.5}?
2. If so, how does the EPA regulate NH₃? Are there requirements for reporting and reducing ammonia emissions?
3. What is the EPA doing to address ammonia emissions from agriculture?
4. Are ammonia emissions a problem for public health?
