

Robert H. Burnett
Executive Director

December 10, 1993

TO: VI Executive Board

RE: Chem Risk Report

Following the Board meeting on December 8, there was a member request to redistribute the ChemRisk report (Critique of "Dioxin Factories") together with the Greenpeace letter to EPA dated April 23, 1993.

Also attached, as requested, is the cover letter draft by Peter de la Cruz to transmit this report to Ms. Carol Browner at USEPA. This document is now undergoing a final review by the special task force with the objective of carrying out the Board's mandate by mailing the package the week of December 20th.

Sincerely yours,

RHB/pmb
