

1 A Extremely well-known. He is a pathologist,
2 and he was the primary author on what is called the
3 First Armed Forces Institute of Pathology, a fascicle,
4 which is a small book on the appearance and diagnosis
5 of mesothelioma from a pathologist's perspective.

6 He also is an author on the most recent
7 edition, which is the third series of fascicles from
8 the Armed Forces Institute of Pathology in Washington,
9 D.C.

10 He wrote that in conjunction with a Dr.
11 Hector Battifora, a pathologist in the City of Hope in
12 California.

13 Q Is that this particular fascicle, Doctor?

14 A That is it, yes.

15 Q Does he also mention risk to brake workers
16 from asbestos exposure in that particular document?

17 A He does.

18 Q Now, Doctor, have there been reported in the
19 medical and scientific literature, not with respect to
20 brake lining workers, but just the occurrence or
21 incidence of mesothelioma in individuals who were
