Robert A. Kehoe, M. D.,
Director
Kettering Laboratory of Applied Physiology
University of Cincinnati
Igen Avenue
Cincinnati 19, Ohio

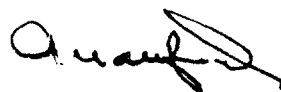

Dear Bob:

Referring again to the subject of my letter of March 12th, I have outlined to Bob Diegfeld the gist of our conversations in Chicago last Wednesday and Thursday, and he suggests that, if you are to be in New York City on other business, a four-cornered discussion with you and Dr. Radtke, our Research Director, might be well worthwhile.

Dr. Radtke is at the moment in Europe, but is due back here on March 30th, and as there is to be a meeting of our Research Committee in Chicago on April 21st (with our annual meeting following on the 22nd and 23rd), some time early in April would be the choice.

With things as tentative as they still are, we hesitate to ask you to come here for this purpose alone.

Sincerely,

RB:lh
