code: (b) (5)

Draft Agenda for this meeting is:

- a. Issues requiring decisions
 - i. Scientific Uncertainty
 - ii. Reconsultation
 - iii. Operational Criteria
- b. Reports
 - i. Disposition of DWR/ICF Comments
 - ii. Report on Adaptive Management Framework

True to its name, The Resources Agency is providing the resources for dinner should the meeting extend past 6:00 p.m. California time.

The technical group responsible for reviewing comments on the BOs is meeting before Wednesday to address the ICF/DWR comments and comments by others. If we have time on Wednesday we will ask for a report from that group.

Also, some of the attorneys met on Monday or Tuesday to discuss the Scientific Uncertainty and Reconsultation issues in an effort to reach some agreements that narrow the scope of issues to be addressed on Wednesday.

Conference line and WebEx are above.
