I talked to Lorraine a few minutes ago and the T.C. has been reset to 1 pm Eastern on the 13th to accomodate Stuart. Lorraine is actually out of e-mail contact.

PM

Myron, Patrick and Stuart -

My sincere apologies for the mix-up on the call today, Monday, 3/11.
Somehow this never made it onto my calendar, so I did not call in.

I would like to reschedule this call for:

Wednesday, March 13
2:00 PM EST
Dial in number: 1-886-262-1790
Meeting number: *1975502* (stars before and after number required)

Agenda:

1. Where do we start for identifying potential sponsors?
2. April IPIECA April meeting
3. Other business

We will be using API's new conf. call system. The dial-in number is toll free. You will hear music until the moderator (me) joins the call. No one will answer your call, it is all electronic.

Please get back to me ASAP with your availability. I have asked Paula Podhasky to work with us on this issue, so she will be on the call also.

Once again I apologize for the confusion on the call scheduled for today.

Regards,
Lorraine

To schedule a conference call of the individuals involved in soliciting new members for the Shanghai Health Research please let me know your availability for the week of March 11th, 2002. At this time

Lorraine is available all day Monday, March 11 and Tuesday anytime other than 10 - 11 AM EST.

Thank you, Paula P.
