My email to her as below:

Dear Dr Krista C, Neumann: (June 24 or 23)

Sorry I bother you again. Did you received my email which I gave you an email two days ago. Do you think you could tell me the information about my visa status. I call you many times but I could not reach you. I left mesage, but it seems you was not received it.

It has been almost long time ago from I was in front of your window for my visa. Do you think when it would be ready and how long I need to wait. Because I promise to API (American Petroleum Institute) to participate the Annual meeting to review that they organized the Shanghai Health Study in August 17-19 in California USA. It would be appriciate very much if you could tell me my Visa information.

Thanks again

>Dear Dr. Krista C. Neumann, (about June 20)

>

>Did you remember me?

>My name is Guilan Li. I have been at your window for visa on April 9. You gave me a blue paper dated 10-4-04 and wanted my CV. I faxed my CV with more than 70 publications to you on next day.

>A few days later, I have been to embassy again and you gave me your name card and your telephone number. But I could not reach you by it easily.

>Could you do me a favor and let me know the result of my visa as soon as possible.

I need to go to U.S.A by August 14 to attend "2004 annual Shanghai health study meeting"(you have a copy of this invitation letter) and my US collaborators will come to China to inspect our work that we have done in 12 cities in China. I will travel with them to inspect my field works in 4 cities. They will be back to Beijing on July 13-14. I can introduce them to you if necessary.
>Please email me back about my visa situation, because it is not easy to reach you at 65323431-5392.

>Thanks!
