Dr. Robert A. Kehoe
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

I wish to express to you my sincere appreciation and thanks for the splendid results that you obtained for us in all matters concerning the Johnson Bronze Company.

I know that the results of your work are going to be of the greatest possible value in improving the physical and morale conditions in this plant.

I am looking forward to receiving your reports which I wish to hand in person to Mr. Flaherty and your instructions to Dr. Perry which I also wish to hand to him at the same time discussing any matter of the procedure you suggest in order that we may effect the greatest cooperation between the plant, Dr. Perry and this office. These reports I would be very glad to receive in triplicate, the original to go to Mr. Flaherty and Dr. Perry, one for my Home Office and one for my Branch Office.

Again with my very best thanks for all the good work you did and the personal pleasure I had in meeting you, I am, with every good wish

Very truly yours,
ROBERT F. COLEMAN, INC.

H. R. Bryant,
Branch Manager.
