Scott/Marlyn,

Good afternoon.

Per our conversation last evening, your front lock is currently set-up/programmed in a way that requires you to flash/hold the FOB in front of the lock mechanism when vacating so it locks behind you accordingly.

In regards to possibly re-programming your door so it locks automatically this will be assessed in full by JBGS' Head Engineer tomorrow, Friday, September 22nd.

I will follow-up with you tomorrow once more information is readily available.

Thank you in advance for your extended patience and please let us know if we can be of any additional assistance in the interim.

Enjoy the remainder of your Thursday.

Sincerely,

Nancy Dianese
