subject OSHA CITATIONS

cc:

The attached copy of OSHA citations indicates the additional health violations from the April visitation at Newark.

If you have any remaining Kaylo for plant use containing asbestos, plans should be made to either control usage or to scrap it.

Asbestos exposure requirements are outlined in OSHA Standard 1910.93a.

Ben Mackey /mr
Manufacturing Safety Engineer

2. TYPE OF ALLEGED VIOLATION(S): **SERIOUS.**

7.
An inspection was made on April 13, 1973 of a place of employment located at:
8. Case Avenue, Newark, Ohio
9. Manufacturer of fibrous glass products and described as follows:

On the basis of the inspection it is alleged that you have violated the Occupational Safety and Health Act of 1970, 29 U.S.C. 651 et seq., in the following respects:

10. Item number	11. Standard, regulation or section of the Act allegedly violated	12. Description of alleged violation	13. Date by which alleged violation must be corrected
1	29 CFR Section 1910.93a (b)(3)	Failure to limit employee's exposure to 10 fibers/cc or less of asbestos longer than 5 micrometers while sawing and drilling Raylo applied to the #11 aerosol furnace. During the abatement period, personal protective equipment or administrative controls shall be used.	October 16, 1973

The law requires that a copy of this citation shall be prominently posted in a conspicuous place at or near each place that an alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited therein are corrected, or for 3 working days*, whichever period is longer.

RIGHTS OF EMPLOYEES

Any employee or representative of employees who believes that any period of time fixed in this citation for the correction of a violation is unreasonable has the right to contest such time for correction by submitting a letter to the U.S. Department of Labor at the address shown above within 15 working days* of the issuance of this citation.
*No person shall discharge or in any manner discriminate against any employee because such employee has filed any complaint or instituted or caused to be instituted any proceeding under or related to this Act or has testified or is about to testify in such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act." Sec. 11(c) (1) of the Occupational Safety and Health Act of 1970, 29 U.S.C. 651, 660(c)(1).

*Under the Occupational Safety and Health Act, the term "Working Day" means Mondays through Fridays but does not include Saturdays, Sundays, or Federal Holidays.

6. TYPE OF ALLEGED VIOLATION(S): NONSERIOUS

An inspection was made on April 13, 1973 of a place of employment located at:

Case Avenue, Newark, Ohio and described as follows:

Manufacturer of fibreglass products

On the basis of the inspection it is alleged that you have violated the Occupational Safety and Health Act of 1970, 29 U.S.C. 651 et seq., in the following respects:

10. Item number	11. Standard, regulation or section of the Act allegedly violated	12. Description of alleged violation	13. Date by which alleged violation must be corrected
1	29 CFR Section 1910.95 (b)(1)	Failure to maintain sound levels at or below limits set in Table G-16 by feasible administrative or engineering means at these workplaces: (1) Operator, aerosol furnace #16; (2) Bonded mat operator working on platform; (3) Machine tender, first level of wool furnace area. During the abatement period, personal protective equipment or administrative controls shall be used.	June 6, 1974
2	29 CFR Section 1910.93 (a)	Failure to limit employee's exposure to an 8-hour time weighted average of 50 ppm or less of carbon monoxide while operating #88 Ryster in the special refrigeration department. During the abatement period, personal protective equipment or administrative controls shall be used.	October 16, 1973
3	29 CFR Section 1910.93 (a)	Failure to limit employees' exposure to 8-hour time weighted average for respirable crystalline silica set in Table G-3 at these workplaces: (1) Hot repairman, furnace area of wool factory; (2) Batch house operator, wool factory; (3) Chemical operator who adds silica to the paint mix. During the abatement period, personal protective equipment or administrative controls shall be used.	December 6, 1973 (For hot repairman and chemical operator); June 6, 1975 (for batch house operator)
4	29 CFR Section 1910.93a (d)	Failure to provide personal protective equipment to employee exposed to more than 10 times but less than 100 times the ceiling limit for asbestos fibers while sawing and drilling kaylo.	August 10, 1973
5	29 CFR Section 1910.93a (f)	Failure to monitor asbestos fibers in every place of employment where asbestos fibers are released.	August 31, 1973

The law requires that a copy of this citation shall be prominently posted in a conspicuous place at or near each place that an alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited therein are corrected, or for 3 working days*, whichever period is longer.
