

CONFIDENTIAL

Mr. L. L. Huxtable

Los Angeles

Harold J. Gibson

Detroit

California Research Program

April 24, 1959

In order that we might all start out with a common understanding of Ethyl's role in the evaluation of the medical aspects of X-105 by California Research Corporation, I asked Howard Hesselberg to put together the attached brief summary of our understanding of the agreement.

If any part of this is not in accord with your understanding, please let us know.

Harold J. Gibson

HJC/dl
