Washable Walls

KITCHEN walls and woodwork of delicate tints are a joy when painted with BASS-HUETER Satin Eggshell Finish. Discolorations from the steam of cooking, grease spots or finger prints can then be wiped off with a damp cloth. Better still, frequent washings will not injure the satin-like finish.

Leading hospitals, demanding a permanent sanitary finish use Satin Eggshell throughout. Apartment houses, where changes of tenancy necessitate constant cleaning, use it for both walls and woodwork in kitchens and bathrooms.

By following the directions on the can you will enjoy using Satin Eggshell Finish, or your contracting painter will be glad to use it at your request.

BASS-HUETER Paints and Varnishes can be had from the following dealers:

BASS-HUETER PAINTS & VARNISHES

SAN FRANCISCO

...the recent interest shown by the public is an interesting manifestation of what can be accomplished when public opinion has been aroused. Many motorists have been sent to jail, many have had their licenses temporarily revoked and a very large number have been fined. This has had the effect of slowing down the whole driving population and in the end will result in a great reduction in accidents.

"The safety council feels that what has been so well begun must not be allowed to languish. If our vigilance shall be unrelenting, we are determined that men, women and children shall not die in preventable accidents if such accidents can be prevented by hard work, organization and broad-gauge education."

Culmore cathedral in Germany is to have what is declared to be the largest accessible bell in the world.

Ask the Tribune

BUREAU OF INFORMATION

Such problems as the proportion of males and females in the population of the United States and other countries; religious beliefs of American chief executives and the location of high schools in various parts of the state came into the TRIBUNE Information Bureau for solution today. A few of the questions follow:

"Will you please tell me what the ratio of men and women is in California, in the United States and in Great Britain?"

According to the last U. S. census report the division of population in the United States is as follows: Males, 53,990,431; 51,810,180. In California 1,813,591; females, 1,613,232. Last census report of Great Britain gives the following proportions, 20,130,823 females, 20,707,907.

"Can you tell me if any president of the United States has been of the Catholic faith?"

None. And the president of the United States has been of the Catholic faith.

"As I am thinking of moving to California will you kindly the name of the nearest big city to that place?"

There is a district high school in California called the Washington High School.

"Kindly tell me if you injured the time an arm on his life at birth?"

The reader is probably referring to the time Roosevelt was seriously injured, at the time of his campaign for the presidency.

"The Glacier National Park in the northern part of Montana is 100 miles long. How many people will answer all questions of a general nature except local problems, debates, or firm names and questions?"

If answers are desired stamps must be enclosed. Results can be obtained promptly. The Tribune Bureau has any problems of a nature to solve, ask The Tribune Information Bureau, 6000.

"Remember me when I am gone away,
Gone far away into the Silent Land."

—ROSSETTI.

THE instinct to perpetuate the memory of the dead is universal. Marble and granite, and bronze; sculpture, and painting, and literature—all have been the instruments through which man has attempted to immortalize his dead.

THE MEMORIAL PARK is his latest and best effort. Stone may crumble, paintings fade away, and literature vanish, but a beautiful park, with the boundless renewal and regenerative power of Nature to continually make it beautiful with flowers and greenness—this shall not pass away. Especially is this true when perpetual care is guaranteed by an endowment fund, as at SUNSET MEMORIAL PARK.

Japanese Leaving Shantung Province

TSINGTAO, China, April 11.—Japanese influence in this region is on the wane. The situation of the Japanese colony in Shantung and environs may be accepted as a gauge. During the Japanese regime, from 1911 to 1922, the Japanese population numbered 20,000. It has dwindled to 12,000 and every month witnesses further decrease.
