JAXON STEEL PRODUCTS DIVISION

NOVEMBER 21, 1929.

TO: Industrial Relations Division, G.M.C.

Detroit, Michigan

FROM: Mr. E. E. Widmark

Jackson, Michigan

Gentlemen:

Attention Mr. C. L. Storck

Recently we have adopted Ethyl Gas for use in our gas trucks that run through our plants.

The question has arisen as to whether there is any danger of the exhaust from this gas being detrimental to the health of our employees.

We would greatly appreciate any information that you can furnish us on this matter.

Yours very truly,

(signed) Eric E. Widmark

Safety Director.
