March 19, 1947

Dr. Robert A. Kehoe
Kettering Laboratory of Applied Physiology
University of Cincinnati
Cincinnati 19, Ohio

Dear Doctor Kehoe:

It was nice of you to write me about your patient, Mr. [REDACTED] of Thermopolis, Wyoming, for I can assure you that we do not wish to be in error. Your letter has been considered in detail by Doctors Heersema and Rucker, who have replied in considerable detail, none of which I need to include in this letter. They are both grateful for the information which you have brought to their attention. All of us here at the Clinic are extremely anxious that our opinions be in keeping with the best available medical opinion. You have helped to support this goal.

Sincerely yours,

E. V. Allen, M.D.
