GENERAL ELECTRIC COMPANY
Flight Propulsion Division
Evendale, Cincinnati 15, Ohio

E. P. Wheeler

A. D. Evans

J. J. Feeks - Cincinnati

C. R. Groninger - Pittsburgh

D. F. Smith

G. R. Graham

Randy,

Relative to our telephone conversation Monday night, your last call report on General Electric, Evendale, was dated May 28, 1962. It did not ask me to take any specific action.

However, at the end of the call report, under "attention G. R. G." two questions were asked. I wrote you comments on the first question and asked Elmer Wheeler to send you and Dave Evans comments on the second question which related to toxicity. (The machine copy of the call report I got showed attention C. R. G. so I dutifully directed my comments to C. R. Groninger in Pittsburgh --but this error has been clarified with Groninger.).
