Attachments: December Science, Policy and Risk Forum.docx

Nancy,

I know you are probably too busy to come to our December ORACBA Science, Policy and Risk Forum but I wanted to reach out to you just in case you have time to make the short hike over here to the South Building. Dr. Ragnar Löfstedt will be presenting a Forum on "The Changing Regulatory Environment in Europe." He will discuss European regulation and the use of evidence based and risk informed policymaking in a post-Brexit world. He also will discuss various aspects of risk analysis and changing views on uncertainty analysis post-Brexit. I took a peek at his slides and he will be discussing at least one pesticide risk.

I am arranging a small group to meet with him for lunch. You may be interested in joining us for that. Perhaps he could give us an overview of the recommendations that came out of last June's 2017 Cambridge Risk and Uncertainty Conference (See <http://www.sra.org/events/cambridge-risk-and-uncertainty-conference-ruc>)

Best Regards,

Linda
