Attorneys at Law
740 Old Kent Building
Grand Rapids, Michigan 49502

Dear Mr. Schenk:

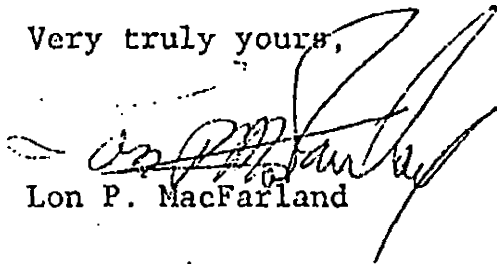

In reply to your request, I furnish you Pages 191, 192 and 193, Volume 7, 2nd Edition, Kirk-Othmer Encyclopedia of Chemical Technology on Diphenyl and Terphenyls, which I have marked Exhibit "1".

I also enclose as Exhibit "2" a sheet entitled Method for Analysis of Biphenyl for Dibenzofuran and Dibenzop-Dioxin.

In addition, I enclose copies of gas chromatographs from additional tests, six pages marked Exhibit "3". I am advised that these chromatographs shown to anyone familiar with gas chromatographs will exhibit the fact that the material tested being biphenyl did not contain any furans or dioxins, with the detection level of the tests being sensitive down to 0.5 parts per million.

I believe this is the material that you requested of me. I am

Very truly yours,

Lon P. MacFarland
