DON G. FOWLER
DIRECTOR OF HEALTH AND SAFETY

Dear Colleague:

Here is the third issue of "The Kettering Abstracts of the Biological and Related Aspects of Lead and Its Compounds". We suggest that this be placed in the red binder which you have previously received. As the pages are numbered in continuous order for each volume, it will probably be most helpful to place them in the binder in the same order. The index, which you will receive after the first volume has been published, will help in locating the specific abstracts and subjects.

Very truly yours,

Don G. Fowler
