Good morning Steven

A couple quick updates for the EEAC meeting next week on the 6th. I plan to have a one page (maybe a little more haha) background document to you COB Monday the 3rd. It will have an agenda, link for video call information, EEI CCR priorities, read ahead questions and some background on EEI. I would like to have a 10-15 minute pre call with you and my boss Alex Bond before the 6th; if you are willing- I will coordinate with Maryanne and Nick to find the time. Thank you for making the time on your West Coast trip to speak with the EEI EEAC; it means a lot to me.

And as always- happy to chat CCR with you at anytime if you want to talk policy or what industry is saying/thinking.

Talk soon

Richard Huggins Jr.

Senior Director, Clean Energy and Environment

Edison Electric Institute
