2 Q Why was that?

3 A It didn't work. It made terrible materials,
4 but it did eventually lead to improved fiber
5 technology and coating techniques which led to glass
6 fiber tires and eventually led to glass fiber in brake
7 linings, but that took a while.

10 Q Do you recall when Ford purchased the Jaguar
11 line?

12 A After I retired, fortunately.

13 Q Why do you say fortunately?

14 A Because it was a terrible investment.

15 Q Do you know what kind of purchase it was?

16 Excuse me.

17 Do you know if they merged or bought certain
18 aspects or bought the whole company?

19 A I think they bought the whole company. They
20 bought the farm.

21 Q Do you know if Ford has any financial
