

RESULTS OF TOXICOLOGICAL STUDIES

Performed under Formal Commitment

for

The American Petroleum Institute
Health and Environmental Sciences Department

P = Study Proposed
(May be at any stage of
Planning and Budget short
of signed commitment)

U = Study Underway
(At least a portion of
the test type is underway)

C = Study Completed

Blanks indicate that no study
is anticipated in this area.
In the Status Tables (Green
Sheets), the word "Chronic"
refers to "Lifetime" studies in
only a few cases and to 1-year
studies in mice in most cases;
therefore, to be certain about
test duration, refer to the
details of the specific test
for the substance in question.

When results are available as a final report, the HESD Research
Publication Number has been added at the end of the series of
results contained in that report. This accession number
corresponds to the number appearing in the Index and Abstracts to
Reports and Other Publications of HESD, the APILIT citation base,
and API Abstracts/Literature; it can be used to order a copy of the
report. Unpublished reports are indicated as Data on File.

October 1989

TABLE OF CONTENTS

	<u>Page</u>
Materials under Test, Proposed for Testing, or Recently Tested	1
Projects by Product Safety (PS) Numbers	3
Gasoline and Gasoline Streams	5
Unleaded Gasoline	7
Leaded Gasoline	15
10% Bottoms	16
Light Cat. Cracked Naphtha	17
Sweetened Naphtha	21
Light Cat. Reformed Naphtha	23
Full Range Cat. Reformed Naphtha	25
Heavy Cat. Reformed Naphtha	27
Heavy Cat. Cracked Naphtha	29
Light Alkylate Naphtha	30
Heavy Thermally Cracked Naphtha	32
Middle Distillates	33
Jet Fuel A	35
Diesel Fuel	36
Kerosine/Deodorized Kerosine	37
Hydrodesulfurized Kerosine	39
Straight Run Kerosine	41
Light Cat. Cracked Distillate	42
Straight Run Middle Distillate	44
Low Cat. Cracked Stock (10%)	46
Medium Cat. Cracked Stock (30%)	47
High Cat. Cracked Stock (50%)	48
Hydrodesulfurized Middle Distillate	50
Lubes	55
Paraffinic Base Stocks	57
Naphthenic Base Stocks	59
Motor Oil Composite	61
Hydrotreated Light Naphthenic Distillate	63
Light Paraffinic Distillate	64
Light Paraffinic Distillate Solvent Extract	65
Hydrotreated Heavy Naphthenic Distillate	66
Heavy Fuels	67
No. 6 Fuel Oil	69
Vacuum Residuum	70
Cat. Cracked Clarified Oil	72

TABLE OF CONTENTS
(Cont'd)

	<u>Page</u>
Solvents	77
n-Hexane	79
Commercial Hexane	81
Cyclohexane	83
n-Heptane	84
C-9 Aromatic Hydrocarbons	85
Mixed Xylenes	87
Stoddard Solvent	90
70 Solvent	93
Benzene	95
Toluene	101
Toluene Concentrate	104
VM&P Naphtha	105
High Aromatic Solvent	106
High Naphthenic Solvent	107
Miscellaneous	109
Petroleum Coke	111
Crude Oil and Crude Oil Fractions	113
Benzopyrenes	119
2,2,4-Trimethylpentane (see unleaded gasoline)	
Alternate Energy	121
Shale Solids	
Raw Shale	123
Spent Shale	125
Shale Oils	
Retorted	127
Hydrotreated	132
<u>In Situ</u>	133
High Nitrogen Crude Oil	134
Shale Oil-Derived Diesel Fuel Marine	135
Shale Oil-Derived Heavy Fuel Oil Equivalent	136
Solvent Refined Coal Distillate	137
Methyl t-Butyl Ether	139
MtBE	141
