

SKELLY OIL COMPANY

INSURANCE DEPARTMENT
C. L. SWIM

TULSA, OKLAHOMA

SEPTEMBER FOURTEENTH,
1 9 3 8.

Dr. R. A. Kehoe
Medical Director
Ethyl Corporation
135 East 42nd Street
New York, N. Y.

Dear Dr. Kehoe:

One of our former employees is making claim against us and while the nature of his claims are yet indefinite they involve claim of injuries to lungs, stomach and nervous system from inhaling the fumes and from physical contact with liquid gasoline which has in it tetraethyl lead obtained from your good company.

It is the writer's responsibility to defend this employer against the claims in this case and in some of my reading I came across a reference to some study reported by you on this subject. This company and the writer would deem it a favor if you would promptly have forwarded for my attention any data that you think might be helpful to us in this case and we shall be glad to make payment for any charge that is involved. Our time for preparation is limited so that an early response will be appreciated and a self addressed envelope for that purpose is enclosed.

Yours very truly,

CLS:K
