Vandergucht was around off and on when those products were used.

Assuming those facts to be true, do you have an opinion to a reasonable degree of medical certainty as to which, if any, exposures to Kaylo pipecovering were substantial contributing factors in the development of his peritoneal malignant mesothelioma?

A I do.

MR. McGOWAN: Objection.

THE COURT: Overruled.

A Yes.

Q What is that opinion, Dr. Rubin?

A That all of the exposures to asbestos were significant contributing factors to the development of his mesothelioma.

Q Now, further assume, Doctor, that beginning in 1957 for approximately a month and in 1958 for at least 10 months he was exposed to dust created by the use, handling and application of Kaylo pipecovering and Kaylo block, and that those products were used at jobsites when he was there in his vicinity and cut and
