difficulty breathing. He could not lie down, and, as I said, I am sure there were times because of the girth increase that he was in physical discomfort.

MR. McGOWAN: Your Honor, may I approach?

THE COURT: Please.

BY MR. McGOWAN:

Q Doctor, did you review all of the medical records before you testified today?

A I believe so.

Q I didn't have these blown up. I am sorry. Doctor, and the jury, I am sorry.

This is the 1980 visit, December 10th, 1980.

Did you see that one?

A This is Dr. Heyman's report.

Q Now, you used the term earlier to the jury, you said an oncologist.

That is just a fancy way of saying a doctor who specializes in cancer treatment; isn't that correct?

A That is correct.
