ADDRESS REPLY TO
"CHIEF OF BUREAU OF ANIMAL INDUSTRY"
AND REFER TO

YLY-

January 30, 1950

Dr. R. Emmet Kelly
Medical Director
Monsanto Chemical Company
75 Rust Building
Washington 5, D. C.

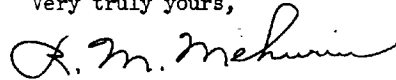

Dear Dr. Kelly:

We have your letter of January 19 regarding the acceptability of your product, Santicizer 141 (2-ethylhexyl diphenyl phosphate) as a plasticizer for synthetic plastic films used for packaging meat and meat product.

On the basis of results of animal feeding studies and extraction studies synthetic plastic films plasticized with Santicizer 141 are acceptable for contact with product prepared in establishments operating under Federal meat inspection.

We have no objection to the use of the words "accepted by the Meat Inspection Division of the Bureau of Animal Industry" or similar phrase in your advertising and technical bulletins.

Very truly yours,

R. M. Mehurin, Chief
Laboratory Section
Meat Inspection Division
