January 27, 1970

Mr. C. E. VanBorn
Plant Manager
Pittsburgh Corning Company
Tyler, Texas 75701

Dear Mr. VanBorn:

Thank you for your cooperation during our recent re-survey of your plant. Your help enabled us to obtain some data which will be of considerable value to our program

As you requested I have enclosed a copy of the results of the original survey of your plant. As you are aware the concentrations at that time were very high in some areas. The proposed Threshold Limit Value for asbestos is 12 fibers/cc greater than 5μ in length as stated in the American Conference of Governmental Industrial Hygienists 1969 list of intended changes. I will send you the results of our re-survey as soon as they become available.

If I can be of any assistance, feel free to contact me.

Sincerely,

Clinton V. Oster
