

1 were published in the literature?

2 A Yes.

3 Q Have you looked at those before?

4 A Some of them.

5 Q And by looking at those, were you able to
6 get the gist of the articles that were discussed, just
7 like the summaries that you referred to earlier?

8 A Yes. They summarize basically the salient
9 feature of an article.

10 Q Okay. So if a corporation like Owens-
11 Corning Fiberglas was receiving Industrial Hygiene
12 Digests that were giving them summaries of medical
13 articles about asbestos and disease, they could get
14 the gist of the article just by looking at the
15 summaries, isn't that what you just said?

16 A I should think so, yes.

17 Q Now, you said that you read Dr. Selikoff's
18 paper -- I mean, Dr. Selikoff's from the Annals of the
19 New York Academy of Science Biological Effects of
20 Asbestos; is that correct?

21 A Yes.
