CEED Files

PLAINTIFF'S EXHIBIT GF-1059

Two all-day asbestos samples were taken by St. Louis personnel and submitted to CEED for counting. The results are summarized below:

Sample Identification	Time (min)	Fibers/cc(TWA)
#2 Lincoln Saw Operator (8/20)	315	0.3
#2 Assistant Line Saw Operator (8/20)	295	0.2

All samples are within the allowable TWA ceiling limit, however, we request that these job classifications be measured for peak exposure.

If you have any questions, please let us know.
