Technical engineering design is a specialized discipline involving many design for cost and other factors. The knowledge involved in the design process is not only technical but also includes the ability to communicate and the ability to work with others. The design process is a team effort and the design team must be able to work together to create a design that meets the needs of the customer.

A black and white photograph of a dark interior room. On the left is a fireplace with a brick surround. On the right wall, three small framed pictures are hanging. A lamp is visible on a table in the center, and a chair is partially visible in the foreground.

Super Kem-Tone

Ordinary flat wall paints are as slow and old-fashioned as the hose and bucket. Today...right now...enjoy the easiest decorating in the world with **KEM-TONE**, the amazing new wall paint that dries so quickly you get a colorful "new" room in a day. It's so easy to wash because dirt can't penetrate its tough, tight surface. Choose from hundreds of the most beautiful, most fashionable colors you ever dreamed about...and for good wood-work, matching colors in **KEM-GUARD**.
