that some alternate schedule represents reasonable further progress within the meaning of Section 172(b) of the Clean Air Act, 42 U.S.C. Section 7502(b).

The provisions of Rule 203(d)(5)(L)(iii) did not apply to any facility subject to a rule which was not in full force and effect as a matter of state law because of judicial action, and in such event the facility shall remain subject to the regulations in effect at the time these amendments were adopted.

The provisions of Rule 203(d)(5)(L) were not severable. Should any portion thereof have been found invalid or been disapproved by USEPA as a revision of the State Implementation Plan pursuant to the Clean Air Act, then the entire Rule 203(d)(5)(L) would have been null and void, the provisions of Rule 203(d)(5)(A) and (B) were to have become immediately effective, and the provisions of existing Rule 203(a), (b) and (c) and prior Rule 203(d)(2) (in effect from April 14, 1972 to the effective date of this Rule) were to have been reinstated.

Rule 203(d)(8)(J)

Existing grain-handling and grain-drying operations subject to Rule 203(d)(8)(B), (C) and (D) were required to achieve compliance on or before April 30, 1977, except that all such operations were required to achieve compliance with Rule 203(d)(8)(A) by June 30, 1975.

New grain-handling and grain-drying operations were required to comply with Rule 203(d)(8) by June 30, 1975.

Rule 203(f)(3)(Preamble)

Potential sources of fugitive particulate matter were required to be maintained and operated in accordance with Rule 203(f)(3) on or after December 31, 1982.

Rule 203(f)(3)(F)(Preamble)

Sources of fugitive particulate matter described in Rule 203(f)(3)(A)-(E) were required to submit an operating program to the Agency for review by December 31, 1982.

Rule 203(i)

Every owner or operator of a new emission source was required to comply with the standards and limitations of Rule 203 by April 14, 1972.

Except as otherwise provided in Rule 203(d)(4), (d)(6), (i)(3), (i)(4) and (i)(5), every owner or operator of an existing emission source was required to comply with the standards and limitations of Rule 203 by December 31, 1973.

Every owner or operator of an existing emission source subject to Rule 203(f) was required to comply with the standards and limitations of Rule 203:

a) by October 14, 1972 when the emissions from such source were caused by the stockpiling of materials;

b) by October 14, 1972 for emission sources subject to Rule 203(f)(4); and

c) by April 14, 1973 for all other emission sources subject to Rule 203(f).

Every owner or operator of an existing emission source subject to Rule 203(g) was required to comply with the standards and limitations of Rule 203 by May 30, 1975.

Notwithstanding any other provisions of Rule 203, every owner or operator of an existing emission source which:

a) was required to comply with Rules 2-2.51, 2-2.52, 2-2.54, 3-3.111, 3-3.2110, 3-3.2130 and 3-3.220 of Rules and Regulations Governing the Control of Air Pollution as amended August 19, 1969; and

b) which was in compliance with such rules, as of April 14, 1972, or is in compliance with Rule 203(c)(1) and (2);

was required to comply with the applicable emission standards and limitations of Rule 203 by May 30, 1975.

Notwithstanding the other dates specified in this rule, grain handling and conditioning operations were required to comply with the requirements of Rule 203 by May 30, 1975.
