Subject: RE: Meeting Invitation

Hi Samantha,

Just wanted to follow up on my email earlier this week.

I know this is short notice and you are extremely busy. Perhaps, I could request a recommendation for someone else at EPA to discuss broad EPA efforts with my committee. As it stands, I have about six people in person and 10-20 teleconferencing in. In fact, we could teleconference in someone from EPA if an in person meeting doesn't work.

Regards,

Robby

Subject: Meeting Invitation

Samantha,

I hope all is well. It was great to see you in the meeting with Administrator Pruitt two weeks ago.

I'm holding a meeting of my Environment Committee Wednesday, June 14. I would like to invite you to speak/dialogue with the committee. This committee has a specific focus on EPA issues, they would very much like to hear about the overarching policy issues and direction of EPA.

I can put together a formal invitation if need be.

Regards,

Robert
