HELLO STEVE,

I REMEMBER SOME OF THE DATES FOR SURE BUT ONE I AM NOT POSITIVE

IN 1979 WHEN NUTURN ACQUIRED WORLD BESTOS I STARTED FULL TIME DEVELOPING
NON ASBESTOS.

1982, AUGUST THE PLANT WAS TOTALLY NON ASBESTOS.

AND STEVE I THINK I RELEASED THE FIRST VERSION OF BIG BLUE AT THAT TIME
1983, BUT LATER CHANGED IT BECAUSE OF HIGH PERCENTAGE OF KEVLAR WHICH
MADE THE MATERIAL HAVE EXCESSIVE HEAT CHECKS. LATER I REMOVED SOME OF
THE KEVLAR AND INCORPORATED GLASS FIBER TO THE FORMULA AND THEN THINGS
WENT WELL IN THE MARKET PLACE.

REGARDS.

WAYNE

P.S. I SEE FEDERAL MOGUL STOCK IS STARTING TO REBOUND.
