TECHNICAL TIPS

- (1) The following NIOSH documents are available from the Superintendent of Documents, Government Printing Office, Washington, D. C. 20402:

Recommendations for Occupational Exposure to:	GPO Stock No:	Price
Asbestos	1733 00009	\$2.10
Beryllium	1733 00011	\$2.10
Hot Environments	1733 00010	\$1.25
Carbon Monoxide	1733 00006	\$2.00
Noise	1733 00007	\$2.00
Ultraviolet Radiation	1733 00012	\$1.25
Inorganic Lead	1733 00013	\$1.25
Coke Oven Emissions	1733 00014	.95
Chromic Acid	1733 00020	\$1.10
Trichloroethylene	1733 00023	\$1.30
Inorganic Mercury	1733 00022	\$1.50
Toluene	1733 00019	\$1.25
Toluene Diisocyanate	1733 00021	\$1.25

- (2) These NIOSH publications are available free from the Office of Public Information, National Institute for Occupational Safety & Health, Room 536, P.O. Bldg., Cincinnati, Ohio 45202. Include a stamped, self-addressed envelope.

Working With Ammonia: Describes how ammonia affects the body and explains measures to control ammonia hazards.

Working With Chlorine: Outlines the use of chlorine in industry, its hazards to the worker, and precautionary measures to be followed.

- (3) **THE INDUSTRIAL HYGIENIST:** The job of the industrial hygienist is to maintain a healthful working atmosphere. The need for these skilled people has skyrocketed with the advent of OSHA.

This booklet explains the important function they fulfill. Available free from your nearest U. S. Dept. of Labor, OSHA Regional Office. Ask for OSHA 2052.
