Dear Harold

ASL REGISTER

Thank you very much for your letter of 7 April notifying me of the new case of S Steele at your Niagara (Canada) plant (which will be numbered Can.13). On looking through it I notice that there is a gap with reference to his occupation, with dates. I wonder if it would be possible for you either to acquire this information yourself, or to let us know to whom we can write.

Also regarding the cases Canada 11 and 12, I have not had any further information from Dr Delorme and would still appreciate any ideas for pursuing it. As you will appreciate it is essential to complete the statistics part of the Register and so keep it up-to-date.

Further to your recent letter regarding the Doll request for information, I wrote to Dr Shah as suggested and he is going to look into it. When I visit the States in September I shall be meeting Dr Shah at the C.M.A. in Washington and would be delighted for you to join us if possible?

All good wishes

Yours sincerely

B BENNETT
