

AL102202505

To: Mr. A. Tatistcheff

August 2, 1943

From: J. J. Chetwynd

Subject: ASBESTOS: Substitution of other Rhodesian Chrysotile
Grades for Grades C and G.

On July 17th you were kind enough to inform me you had passed my memorandum of July 12th to the Cork, Asbestos and Fibrous Glass Division, and that as soon as you received a reply you would relay it to me.

You will appreciate that a month has now gone by since Mr. Utley Smith made certain statements at the Operating Committee and that we are still waiting for confirmation of these statements to forward to the United Kingdom.

I would be grateful therefore if you will take every step to see that this information becomes available in the very near future.
