Subject Product Safety NEWSLETTER

To Gateway 1703 - S. R. Pitts

cc: Gateway 1558 - E. P. Massaro

Attached is the summary of salient points from the first Law Department and Environmental Affairs Committee meeting. Also attached is a copy of the Product Safety NEWSLETTER referenced in the summary.

Based on the comments about the newsletter, would you please re-evaluate the need to hold publication of the newsletter until the work of the committee is complete, which may be several months. The newsletter has been regularly issued on a quarterly basis since 1985 as my primary means of communicating to those in the corporation who are interested in product safety issues. Each issue was reviewed by the Law Department prior to issuance.

I am seeking your consent to issue the latest edition of the newsletter now and to continue quarterly issues of the newsletter in the future, subject to content approval by the Product Safety Committee.

I would appreciate your prompt review of this matter and agreement to allow publication of the newsletter. If you have any questions, please contact me.

Donald E. Ayers
Director, Product Safety
Environmental Affairs
