label was seen on boxes of Kaylo at any of these jobsites, would it, sir?

A It would surprise me on '67.

Q It would?

A Yes.

Q Sir, you started with Owens-Corning Fiberglas in 1961; is that correct?

A Yes.

Q You were a technician in the high temperature insulation lab; is that correct?

A I started at the bottom, yes, sir.

Q And then you eventually worked your way up?

A Yes, sir.

Q And you stayed in that lab until 1965?

A That is correct.

Q You were a member of the research and development team; isn't that true?

A Research and development team of that laboratory, yes.

Q And that lab was primarily doing work on Kaylo; isn't that right?
