Dear Doctor Kehoe:

We refer to copies of Professor Drinker's letter to you of March 5, 1947, and your reply thereto dated March 10, and are pleased to note that you are willing to collaborate with us in analytical work, particularly lead in urine, from time to time as our circumstances may require.

We appreciate your position fully and we hope that it will not be necessary for us to request your services from the medical-legal angle, but it is a source of satisfaction to know that we can do so if an important case should arise.

Thanking you for your interest in our behalf,

Yours very truly,

L. J. Buck
