

/ Willard Lead Products Company

8/25/64

After receipt of Mr. Willard's
letter of 8/18 and the completion
of 30 blood analyses and
17 ~~urine~~ ~~samples~~ analyses
I talked with Dr. Mayall
by telephone and told him
that there could be no
doubt that the majority
of the men sampled were
in jeopardy and that
improvement in environment
was very necessary for the
avoidance of difficulty.

L. W. SANDERS, M.D.
