Hi Ethan,

Can you please update your story with the following statement from EPA Spokesperson Liz Bowman?

“This report, based on information from the previous administration, underscores why Administrator Pruitt’s work on Superfunds is so important. Administrator Pruitt has changed the focus of EPA, and through his Superfund task force he is ensuring the expertise of EPA staff is fully utilized where needed throughout the country in order to cleanup Superfund sites and protect human health and the environment.”

Thank you,

James
