SHERWIN-WILLIAMS PAINT HEADQUARTERS

Friday & Saturday SUGGESTIONS

Fine old SWP gives the best paint results at lowest cost

SWP is the world's greatest paint bargain. Come in and we will prove this in the most convincing way—with a complete estimate on the amount of SWP needed to paint your entire house. It costs less to paint your house with SWP because fewer gallons are needed. This fine paint has such a wonderful body that each gallon thoroughly covers many more square feet of surface.

In addition to what you save on first cost, think of how much you save on repainting. SWP lasts five years, on the average—over twice as long as cheaper paint would. SWP with its positive protection—long durability and clean, rich colors that retain their beauty to the very last—gives you the best possible paint job.

Now is the time to paint. Remember, ruinous winter neglects nothing. Your house, the garage, fences—anything exposed to its merciless punishment should have an armor-like coating of SWP to avoid costly damage. Come in and see our brand color schemes.

Paint now for economy

Specify SWP and engage a good painter

The New Universal Electric Washer
