To WJB Vogel

Date 1/15/88

Attached is my most recent letter
Regarding the Carbine AE
testing.

At this time we will support
the SDA activity. Besides that
I don't see any action we
need to take at this time.

It appears there has been no
customer response to the
issue. (Does or anyone else's)

SUBJ: MSDS DISTRIBUTION FOR BLANE PRODUCTS

VISTA

Houston currently distributes MSDS's to new customers of our products, including Blane Compounds. This is accomplished by a COEDS generated notification to our department.

It is my understanding that Blane may be moving away from COEDS for some of your order entry function. We need to review this action to determine if we will still receive the MSDS notification when you have changed your in-plant system.

Would you please determine the status of this issue and let me know if we will need to do something different to assure the MSDS's are sent and appropriate records kept.
