LOOKING DOWN YOUR FLOWLINE...

... what do you see? Dependability ... or frequent failure; long, economical life ... or costly maintenance; W-S FORGED STEEL FITTINGS ... or the ordinary kind that are a source of constant trouble and expense?

W-S Screw-end and socket-weld fittings are the only type that become integral parts of your steel pipe-lines ... their forged steel construction matches that of the pipe or tubing in chemical and physical properties, in strength, weight and resistance to pressure ... heat ... corrosion.

Whatever your pipe or tubing application, you can profit from the permanence of W-S Fittings. Initial cost is often less; final cost is always less. Literature is available ... write for it.

AVAILABLE IN CARBON STEEL, CHROMIUM-MOLYBDENUM ALLOYS AND STAINLESS STEELS.
