Subject: SO 3349 effort

Hi all,

could you please include Gordon on the team that is looking at revisions to any GRSG IMs - (b) (5)
Gordon will loop in 200 staff as needed.

Also, we discussed at the 200/300/400 AD meeting last week how to move forward on the planning side (b) (5)

Are there any others that you need 200 support for?

thanks
karen

Steve and Cathy - please see below. Do we have a "team" yet that is looking at what we are going to do with IM 2016-140, Implementation of Greater Sage-grouse Resource Management Plan Revisions or Amendments – Oil & Gas Leasing and Development Sequential? This is one of the "actions" that we listed as potentially burdensome per attached spreadsheet.

Tim - I am not sure that we have anyone in WO-300 looking at the other document mentioned in the email below (IM 2016-140, Process for Assessing, Coordinating, and Implementing Greater Sage-grouse Land Use Plan Adaptive Management Hard and Soft Triggers). Could we request that Gordon take the lead on that?

Thanks, Shelley

There really has not been a team formed yet. Janna agreed to lead the effort for 310 but she has been finalizing the NSO studies of the 4 offices. I believe that she will have time to take this up next week now that the studies will be briefed on Friday. I don't believe that Janna has reached out to the field for team members yet. We can certainly use Gordon and his expertise.

Also this fits with our NRS needs, both in detail and the exception, hope to have some help for this lift.

Cloning would be good,
s
