Dear Roberta:

I have some EPRI documents on PCB produced in the late 1970's. I ran the defendant's list of experts through the reference section of those documents and got some hits. The following page labeled ① are publications by some of the defendant's experts being cited in the late 70's. It may be worthwhile to track these down.

On the page following labeled ② I spotted some EPRI references with intriguing titles, some relating to the defendants. It might be worthwhile locating these articles.

Finally, could you tell me if Nevada Power is a member of EPRI, and if so, for how long?

Thanks!

Pick Ellis
