Dear Jerry:

Confirming our telephone conversation this afternoon, I would be most grateful if you or someone you designate would represent the A.I.H.A. at an ad hoc panel meeting concerned with standards for vinyl chloride in the context of the American Chemical Society. For your information, I am enclosing two documents dated April 1, 1974 and April 15, 1974 which indicate the task at hand. I have asked Dr. V. C. Brum to chair this one-day meeting which we have scheduled for May 21 starting at 9:30 a.m. in the American Chemical Society building, 1155 16th Street, NW, Washington, DC.

It is my hope that by assembling a small group of eminently qualified and scientifically objective individuals we can develop a statement for the American Chemical Society to ultimately present to the Department of Labor.

If you could let me know as soon as possible by telephone who you feel can best represent the A.I.H.A. at this meeting, I would be extremely grateful.

Kindest personal regards,

H. H. Fawcett
H. H. FAWCETT
Technical Secretary
