

Standards, Regulations and Variances, MSHA, phone (703) 235-1910.

SUPPLEMENTARY INFORMATION: MSHA is revoking the existing regulations for approval of blasting devices under the authority of section 508 of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-173, as amended by Pub. L. 95-164, 83 Stat. 800 (30 U.S.C. 957).

Executive Order 12291 and the Regulatory Flexibility Act: MSHA certifies that this rulemaking action will not have a significant economic impact on a substantial number of small entities. Therefore, a regulatory flexibility analysis is not required.

Publication as a Final Rule. This rule eliminates an obsolete regulation and does not affect the rights or obligations of any person currently holding an approval. In addition, the rule relates to Agency practice and procedure for approval of devices that are no longer used in underground coal mines. Accordingly, publication of a general notice of proposed rulemaking is not required by 5 U.S.C. 553.

Since the existing regulations are obsolete, Chapter I of Title 30 of the Code of Federal Regulations is amended by removing and reserving 30 CFR Part 17.

List of Subjects in 30 CFR Part 17

Mine safety and health, Explosives.

PART 17—[REMOVED AND RESERVED]

Accordingly, 30 CFR Part 17 is removed and reserved from Chapter I of Title 30 of the Code of Federal Regulations.

Dated: June 12, 1988.

David A. Ziegler,
Assistant Secretary for Mine Safety and Health.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 60

[A-10-FRL-3034-7]

Standard of Performance for New Stationary Sources; Delegation of Authority to Oregon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Delegation of authority.

SUMMARY: Section 111(c) of the Clean Air Act permits EPA to delegate to States the authority to implement and

enforce the standards set out in 40 CFR Part 60, Standard of Performance for New Stationary Sources (NSPS).

The State of Oregon Department of Environmental Quality (DEQ) requested EPA for delegation of authority to implement and enforce two NSPS categories on October 21, 1982. EPA granted the request on June 5, 1986. DEQ now has the authority to enforce these two NSPS source categories as approved in their OAR 340-25-650 and OAR 340-25-655. This notice will amend the February 20, 1976, December 3, 1981, September 3, 1982, September 27, 1983, October 12, 1984 and December 4, 1985 delegations.

EFFECTIVE DATE: June 5, 1988.

ADDRESSES: The relative material in support of this delegation may be examined during normal business hours at the following location: Air Programs Branch (10A-86-5), Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101.

FOR FURTHER INFORMATION CONTACT: Laurie Kral, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101, Telephone: (206) 442-0180, FTS: 399-0180.

SUPPLEMENTARY INFORMATION: On November 11, 1975, the Regional Administrator for EPA Region 10 delegated to the State of Oregon the authority to implement and enforce New Source Performance Standards (NSPS) for 13 categories of stationary sources as promulgated by EPA prior to January 1, 1975. This delegation was published in the Federal Register on February 20, 1976 (41 FR 7749). Additional delegations were made on December 3, 1981 (46 FR 82068), September 3, 1982 (47 FR 38982), September 27, 1983 (48 FR 46535), October 12, 1984 (49 FR 40031) and January 24, 1986 (51 FR 3172).

DEQ in a letter dated October 21, 1982 requested additional delegation of two source categories under NSPS. Due to an error, this delegation was never granted. However, on June 5, 1986 a letter granting this additional delegation of authority DEQ was signed and is as follows:

Fred Hansen, Director,
Department of Environmental Quality, Post Office Box 1760, Portland, Oregon 97207

Dear Mr. Hansen: On October 21, 1982, you requested that EPA extend the delegation of authority to enforce two additional New Source Performance Standards (NSPS) to the Department of Environmental Quality (DEQ). Due to an error, this delegation request was not earlier approved; however, we have reviewed that request and hereby grant to DEQ the authority to enforce the following two categories:

Battery Plants (Subpart KK)

Phosphate Rock Plants (Subpart NN)

This delegation is subject to the conditions outlined in the original letter of delegation dated November 10, 1975 and published in the Federal Register (40 FR 7749). A Notice announcing this delegation will be published in the Federal Register in the near future.

The Notice will state, among other things, that effective immediately, all reports required pursuant to the federal NSPS from sources located in the state which were previously sent to EPA will now be sent to the Director of DEQ. Additionally, that DEQ agrees to submit until further notice copies of reports required pursuant to 40 CFR 80.7(c) relating to excess emissions to EPA Region 10, Attention: Chief, Air Operations Section.

Since this delegation is effective immediately, there is no requirement that DEQ notify EPA of its acceptance. Unless EPA receives from DEQ written notice of objections within ten days of the date of receipt of this letter, then DEQ will be deemed to have accepted all the terms of the delegation.

An advance copy of the Federal Register is enclosed for your information.

Sincerely,

Ralph R. Bauer,
Acting Regional Administrator.

Enclosure

This notice is being published to notify the public that a delegation of authority under NSPS has occurred.
(Section 110, Clean Air Act 42 U.S.C. 7410(a) and 7502.)

List of Subjects in 40 CFR Part 60

Air pollution control, Aluminum, Ammonium sulfate plants, Cement industry, Coal, Copper, Electric power plants, Glass and glass products, Grains, Intergovernmental relations, Iron, Lead, Metals, Motor vehicles, Nitric acid plants, Paper and paper products industry, Petroleum, Phosphate, Sewage disposal, Steel sulfuric acid plants, Waste treatment and disposal, and zinc.

Dated: June 5, 1988.

Ralph R. Bauer,
Acting Regional Administrator.
