U.S. Will Be Communist in 30 or 40 Years, Party Chairman Says

The United States will be a socialist or Communist nation within 30 to 40 years — if not sooner — Miss Elizabeth G. Flynn, national chairman of the Communist Party, predicted Thursday at Clark International.

Japanese to Get Missile Training

TOKYO (AP)—Japan's defense agency will send a 20-man team to the United States late this year for training in the use of sea-to-air missiles, an agency official said Thursday. Plans are to build two 1,000-ton destroyers to carry the U.S.-made missiles to be made available next year. This will make Japan the first Asian nation with a missile-carrying navy.
